Ethical Review Form

The University requires all undergraduate final year projects to undergo an ethical review and, where human research ethical issues are identified, to ensure that these issues are addressed. For the majority of Computing Final Year Projects, the outcome will be either 'No ethical issues' or 'Minor/Major ethical issues which have been addressed'; in these cases, approval can be given by the supervisor. In the unlikely event that the outcome is 'Ethical issues that have not been addressed', the completed form will need to be forwarded to the Faculty Research Ethics Committee. The deadline is 1/11/2019. Remember to tick "Send me an email receipt of my responses" at the end of MS Forms to receive a confirmation email. Please note that you need to forward the "confirmation email" to your supervisor in order to validate this submission.
